

The environmental consequences of the proposed action and alternatives are addressed at a level suitable to a management policy plan. This programmatic EIS considers impacts to cultural resources, natural resources, and the socio-economic environment. More detailed environmental analysis for specific trail projects is expected to follow in tiered environmental documents.

**SUPPLEMENTARY INFORMATION:** The public review period for this document will end 60 days after the publication of the Notice of Availability in the **Federal Register**. Comments will be accepted until March 1, 1995. All review comments must be received by that time and should be addressed to Regional Director, Western Region, Attention Meredith Kaplan, National Park Service, 600 Harrison Street, Suite 600, San Francisco, CA 94107-1372.

For copies of the Comprehensive Management and Use Plan/EIS or further information on the documents, please contact the above address or telephone 415/744-3968. Copies of the documents are also available at national parks along the route and county park and planning agencies and libraries along the route.

Dated: December 16, 1994.

### **General Management Plan; Kaloko-Honokohau National Historical Park; Record of Decision**

**SUMMARY:** Pursuant to Section 102 (2) (C) of the National Environmental Policy Act of 1969 (P.L. 91-190 as amended), and specifically to regulations promulgated by the Council on Environmental Quality at 40 CFR 1505.2, the National Park Service, Department of the Interior, has approved a Record of Decision (ROD) for the General Management Plan/Environmental Impact Statement for the Kaloko-Honokohau National Historical Park, Hawaii County, Hawaii.

The National Park Service will implement the proposed plan as identified in the Final General Management Plan/Environmental Impact Statement, issued in October, 1994.

Copies of the Record of Decision may be obtained either from the Superintendent, Kaloko-Honokohau National Historical Park, 73-4786 Kunalani St. # 14, Kailua, Kona, HI 96740, or the Pacific Area Office, 300

Ala Moana Blvd., Suite 6305, P.O. Box 50165, Honolulu, HI, 96850.

Dated: December 13, 1994.

### **Notice of Availability of Final Comprehensive Management Plan/Development Concept Plan and Final Environmental Impact Statement for City of Rocks National Reserve, Idaho**

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice.

**SUMMARY:** Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969 (P.L. 91-190, as amended), the National Park Service, Department of the Interior, has prepared a Final Comprehensive Management Plan/Development Concept Plan/Environmental Impact Statement (FCMP/DCP/EIS) that describes and analyzes a proposal and two alternatives for the management, use, and development of City of Rocks National Reserve, Cassia County, Idaho. The FCMP/DCP/EIS is two documents bound together in one volume—the FCMP/DCP which describes the proposal in detail; and the Final EIS, which presents the proposal and two alternatives, along with the analysis of the environmental consequences of the respective implementations.

The Draft Comprehensive Management Plan/Development Concept Plan/Environmental Impact Statement was released for public review on November 30, 1993 (58 FR 228), and the public comment period closed February 1, 1994. During this period, three public meetings were held; written comments were also received. The FCMP/DCP/EIS contains responses to the comments received and modifications to the text as needed in response to the comments.

The proposal, which constitutes the comprehensive management plan for the reserve, calls for the preservation and interpretation of exceptional and important natural and cultural resources and the management of recreational use to protect and maintain the reserve's scenic quality. The plan's focus is on remnants of the California Trail, distinctive rock outcrops and associated habitats, and a historic rural setting reminiscent of the American West, while accommodating the traditional use of livestock grazing, trailing, sport hunting, and recreation. Uses would be directed to different zones to minimize conflicts among potentially

incompatible activities. Grazing and recreational use would be managed to avoid unacceptable degradation of resource values, placing greatest emphasis on protection of historic fabric, natural rock surfaces, habitats for species of special concern, and riparian areas and wetlands. Portions of the reserve would remain in private ownership, and some public land would remain under grazing allotments, where traditional ranching activities would perpetuate the historic rural setting existing at the time of the reserve's establishment. Private commercial and residential development would be regulated by county zoning ordinances and may be limited by the acquisition of interests in lands on an opportunity basis necessary to protect reserve resources. Implementation of the proposal would be a partnership among the National Park Service, the Idaho Department of Parks and Recreation, the Cassia County commissioners, and private landowners.

An overview of changes that have been made in the proposal since the draft plan includes:

- (1) The decision on how climbing would occur outside the foreground of the California Trail would be deferred to the climbing management plan;
- (2) Some additional areas would be closed to grazing to protect wetland and riparian areas. Some decisions on where grazing would occur would be deferred to the grazing management plan;
- (3) Prescriptions for uses of zones, subzones, and areas within the subzones would be eliminated in favor of more general guidance;
- (4) The proposed road around the south end of the reserve would be eliminated;
- (5) The Twin Sisters formation would be managed to emphasize resource protection and to exclude active recreational uses, including climbing, picnicking, and camping; and
- (6) A Statement of Findings on Wetlands has been added. A more detailed list of changes are in the plan summary and in appendix I.

The alternatives under consideration, in addition to the proposal, include the no-action alternative, which would continue to emphasize unrestricted private use and public recreational use, sometimes to the detriment of exceptional cultural and natural values, and an alternative that would emphasize the preservation and interpretation of the California Trail and the rock outcrops to the exclusion of traditional land use and the historic rural setting.

Major impact topics assessed for the proposed action and alternatives

include the Cultural/Visual Environment, Natural/Visual Environment, and Socioeconomic Environment.

**SUPPLEMENTARY INFORMATION:** The no-action period on this final plan and environmental impact statement will end 30 days after the Environmental Protection Agency has published a notice of availability of the FCMP/DCP/EIS in the **Federal Register**. For further information, contact: Regional Director, National Park Service, Pacific Northwest Region, 909 First Ave., Seattle, WA 98104-1060, (206) 220-4010.

Copies of the FCMP/DCP/EIS will be available at City of Rocks National Reserve, P.O. Box 169, Almo, ID 83312. Additional copies will be available for inspection at the following locations: Twin Falls Public Library, 434 2nd Street East, Twin Falls, ID; Burley Public Library, 1300 Miller Ave., Burley, ID; Boise Public Library, 715 S. Capital Blvd., Boise, ID; Community Library, Ketchum, ID; Pocatello Public Library, 812 E. Clark, Pocatello, ID; Idaho State University Library, Pocatello, ID; Weber County Library, 2464 Jefferson Ave., Ogden, UT; Whitmore Library, 2197 E. 7000 S., Salt Lake City, UT; Utah State Library, 2150 S. 300 W., Suite 16, Salt Lake City, UT; the Department of the Interior Library and at the National Park Service Public Affairs Office, 1849 C Street NW., Washington, DC; and the National Park Service, Pacific Northwest Regional Office, 909 First Ave., Seattle, WA.

Dated: December 21, 1994.

### **Public Scoping Session; Golden Gate National Recreation Area; Crissy Field Site Design**

**SUMMARY:** Notice is hereby given in accordance with the provisions of the National Environmental Policy Act (42 U.S.C. 4321 et seq.) that a public scoping workshop will be held at Building A, Fort Mason Center on Thursday, January 12, 1995 from 7:00-9:00 pm. (p.d.t.) in San Francisco. This meeting will constitute a public scoping session for the preparation of a Site Design Plan and environmental document. In accordance with section 102(2)(C) of the National Environmental Policy Act of 1969, Pub. L. 91-190, the National Park Service is preparing an environmental document to address the Crissy Field Site Design. At this time,

the National Park Service has not determined whether an Environmental Assessment or Environmental Impact Statement will be prepared, however this meeting will serve as the scoping session for either document.

The responsible official is Stanley T. Albright, Regional Director, Western Region, National Park Service. The draft Site Design Plan and environmental document are expected to be available for public review in May 1995. The final plan and environmental document are expected to be completed in August 1995.

For additional information on these items, contact the General Superintendent, Golden Gate National Recreation Area, Building 201, Fort Mason, San Francisco, California 94123.

The main agenda items at the public workshop will be a presentation of the approved concepts and actions for the Crissy Field planning area from the Presidio General Management Plan Amendment and Environmental Impact Statement (GMPA/EIS); identification and discussion of issues related to this planning process, public comment to date, information about the environmental setting of the site, and preliminary concepts for alternatives.

The approved GMPA concept for Crissy Field includes restoration of wetlands and the historic airfield; expansion of natural dunes and improved access to the shoreline; provision of parking and access to support boardsailing and other recreational activities, and an improved entrance to this park site. This phase of planning will take this programmatic concept to a further level of detail for implementation.

The public workshop announced above will be the first of several workshops and meetings conducted over the next six months by the National Park Service as part of the planning process for the Crissy Field area of the Presidio.

Statements of issues and concerns for the purposes of scoping will be accepted through February 28, 1995.

The meeting is open to the public. Persons who cannot attend the workshop, but wish to receive handouts that will be available at the meeting, or other additional information should contact the Park Planner, Golden Gate National Recreation Area, Building 201, Fort Mason, San Francisco, California 94123 or telephone (415) 556-4137.

Minutes of the meeting will be available to the public. For copies of the minutes, contact the Office of the Park Planner, Golden Gate National Recreation Area, Building 201, Fort Mason, San Francisco, California 94123.

Dated: December 16, 1994.

### **Mississippi River Corridor Study Commission**

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice of meeting.

**SUMMARY:** This notice sets the schedule for the forthcoming meeting of the Mississippi River Corridor Study Commission. Notice of this meeting is required under the Federal Advisory Committee Act (Public Law 92-463). Meeting Date and Time: January 26, 1995; 2 p.m. until 6 p.m. Address: Hampton Inn, 4646 Constitution, Baton Rouge, Louisiana.

The business meeting will be open to the public. Space and facilities to accommodate members of the public are limited and persons will be accommodated on a first-come, first served basis. The Chairman will permit attendees to address the Commission, but may restrict the length of presentations. An agenda will be available from the National Park Service, Midwest Region, 1 week prior to the meeting.

#### **FOR FURTHER INFORMATION CONTACT:**

Alan M. Hutchings, Acting Associate Regional Director, Planning and Resource Preservation, National Park Service, Midwest Region, 1709 Jackson Street, Omaha, Nebraska 68102, (402) 221-3082.

**SUPPLEMENTARY INFORMATION:** The Mississippi River Corridor Study Commission was established by Public Law 101-398, September 28, 1990.

Dated: December 21, 1994.
